

● INDEPENDENT IT REVIEWS

Clear insight into your IT and a clear way forward.

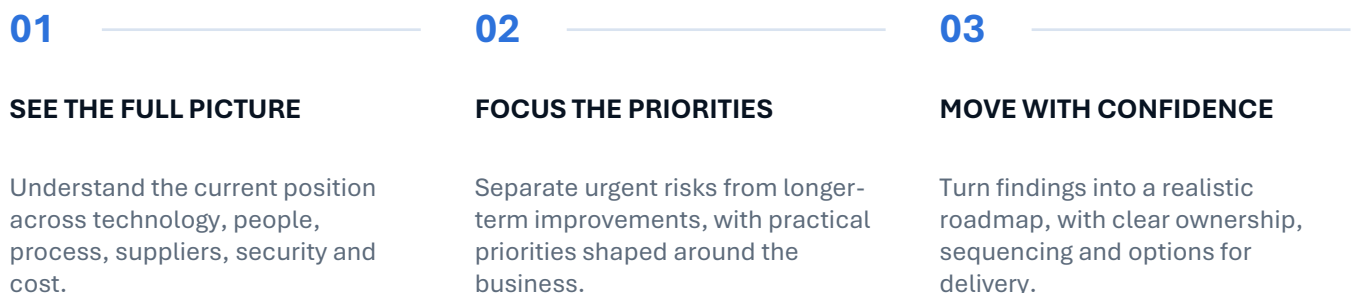

A focused, independent review of your IT, security, suppliers, costs and governance, translated into clear priorities and practical recommendations.

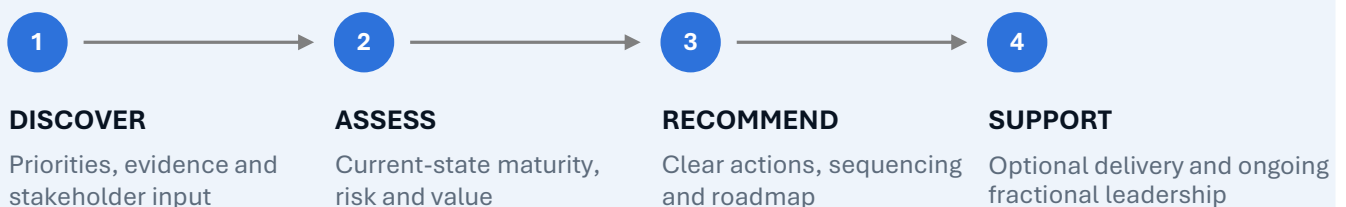

WHAT THE REVIEW DELIVERS

A clearer view of what is working, what is not, and what needs to improve

One IT reviews IT through a business lens. The aim is not a long technical audit, but a concise evidence-based assessment that helps leadership teams understand risk, value, capability and the next decisions to make.

A SIMPLE, CONSULTATIVE PROCESS

TAILORED TO YOUR NEEDS

Review the areas that matter most

Choose a focused review of a specific area, or combine the areas below for a broader review of your IT.

STRATEGY & GOVERNANCE

IT strategy, governance, operating model, decision-making and accountability.

CYBER RISK & INFORMATION SECURITY

Information security, data protection, cyber risk, resilience, controls and risk management.

SERVICE & SUPPLIERS

IT performance, Managed Service Providers, suppliers, SLAs and contracts.

TECHNOLOGY & CLOUD

Infrastructure, Microsoft 365, cloud, applications and architecture.

PEOPLE & CAPABILITY

IT leadership, organisation, skills, capacity, training, and team capability.

COST & VALUE

Budgets, licensing, supplier spend, duplication, and return on investment.

CONTINUITY & RECOVERY

Business continuity, backup, disaster recovery and critical dependencies.

TRANSFORMATION & IMPROVEMENT

Improvement priorities, dependencies, sequencing and delivery readiness.

WHAT YOU RECEIVE

- **Executive-level assessment**
A concise view of IT maturity, key risks, gaps, and opportunities.
- **Prioritised recommendations**
Clear, practical actions prioritised by risk, business value and impact.

**ONE IT.
ONE PERSON.
START TO FINISH.**
